RESEARCH INTERESTS

Computer vision with special interests in Object detection, image classification, and activity analysis;
Deep learning with special interests in convolutional network and hierarchical model.

EDUCATION

University of Missouri, Columbia, MO USA

Ph.D. in Electrical and Computer Engineering, Oct. 2016

- Dissertation Topic: "Large Scale Image Classification and Object Detection"
- Advisor: Prof. Tony X. Han

MS in Electrical and Computer Engineering, May. 2014

- Master Topic: "An Image-classification Leveraged Object Detector"
- Advisor: Prof. Tony X. Han

University of Science and Technology of China, Hefei China

Bachelor of Engineering, Dept. of Automation, Jul, 2011

RESEARCH EXPERIENCE

JingChi Corp, Sunnyvale, CA, USA

Research Scientist, Manager: CTO Xu Han

Apr. 2017 - Present

In charge of perception team for autonomous driving. Developing robust and accurate pedestrian and vehicle detection by taking advantage of multiple sensors such as LIDAR, Radar and Camera with both hand-designed features and deep learning based methods.

Baidu USA, Sunnyvale, CA, USA

Senior Software Engineer, Manager: Dr Xu Han

Nov. 2016 - Apr. 2017

Developed extrinsic calibration algorithms for multiple sensors in Autonomus Driving Team. The algorithm can accurately and efficiently calibrated LIDAR-IMU and LIDAR-Camera.

University of Missouri, Columbia, MO, USA

Research Assistant, Advisor: Professor Tony X. Han

Aug. 2011 - Oct. 2016

Worked on image-based object detection and classification with both traditional hand-designed features and deep structure learned features.

NEC Laboratories America, Inc, Cupertino, CA, USA

Engineering Intern, Manager: Dr. Xiaoyu Wang

Aug. 2013 - Nov. 2013

We were runner up winner in the ImageNet Large Scale Object Detection Challenge (ILSVRC 2013) worldwide and ranked first place in United States.

Sony Electronics Inc, San Jose, CA, USA

Engineering Intern, Manager: Dr. Jason Xun Xu

May. 2013 - Aug. 2013

Designed and implemented learning-based encoding parameter estimation algorithm for efficient HEVC encoders.

Sony Electronics Inc, San Jose, CA, USA

Engineering Intern, Manager: Dr. Jason Xun Xu

May. 2012 - Aug. 2012

Implemented and enhanced stacked convolutional independent subspace analysis features for action recognition.
